in Drishya Kadadas

Objective

To secure a challenging and rewarding position as junior ICT engineer in a dynamic and growth oriented organisation, applying my knowledge of computer system, database management and implement innovative IT solutions that drive business growth and contribute to strategic decision-making.

Experience

- **Tinkering India**
Embedded project manager | IoT & Robotics Engineer | R&D & Automation
As a Tinkering India intern, I help design hands-on STEM workshops, focusing on Arduino, IoT, and robotics, while engaging with young innovators and enhancing learning modules.
- **Eduneuro**
Assistant
As an EDUNEURO intern, I support the creation and refinement of digital learning materials, collaborate on interactive course development, and assist in research to enhance student engagement and educational outcomes.

Education

- **Seventh-Day Adventist Higher Secondary School** 2022
SSC
74%
- **Government Polytechnic, Gandhinagar** 2022-2025
Diploma in Information and Communication Technology
5th semester-7.63 CGPA

Skills

- Programming(C,C++, HTML, Embedded C, CSS)
- Wordpress
- Troubleshooting
- Communication
- Problem solving
- Critical thinking
- Public speaking & Workshops
- Teamwork
- Creativity & Innovation
- Git

Projects

- **IoT based Air Pollution Monitoring System**
- **Website page**
Created a website page of Tinkering India, through Github.
- **Website page**
Added a news page to Tinkering India, using Wordpress
